Front end Web Developer

Summary

Front end developer with 3+ years of experience delivering React, Next.js, Node.js, cloud platforms and SQL-based solutions that streamline operations, strengthen application performance, and convert technical requirements into user-facing functionality. Combines UX focused UI engineering instincts with backend and data integration capability.

Skills

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Redux

Backend: Node.js, Express, REST APIs, SQL, MongoDB, kafka

Testing & DevOps: Cypress, Git, CI/CD, AWS Amplify, Docker, Postman, Github Actions

Other: Python, C#

Experience

Data Cleansing Specialist, Procure Analytics - Remote, ON

Feb 2025 - Present

Software Developer Co-op, IMA Ltd – Tillsonburg, ON

Jan 2024 – Apr 2024

- Enhanced website performance by developing a custom pagination feature in React & Typescript, restricting last page selection and enabling range based navigation to reduce DB load and improved page response time.
- Built MongoDB aggregation pipelines for Node.js API, that reduced manual report generation time by 80%.
- Built a .NET-based(C#) Windows Forms application with SQL Server integration to manage client portal messages (CRUD), streamlining updates and enhancing usability.
- Developed a windows forms application to translate text based on the countries using Google cloud translation using C#, .NET which reduced the manual translation time.

Full Stack Developer, Level5Fleet (Freelance) - Remote

Jul 2023 - Nov 2023

- Built and maintained Next.js + ChakraUI components for an IoT based fleet management platform, delivering UI enhancements and reducing defects.
- Conducted unit and integration testing with Cypress, integrating test runs into AWS Amplify to ensure build stability before every deployment.

Software Engineer, RedBlackTree Technologies – Chennai, TN, India

Nov 2022 – Apr 2023

- Developed & debugged reusable components using ReactJS, Redux, Tailwind CSS for a dynamic SPA application, improving UI performance.
- Led migration from Google Analytics 3 to GA4, improving tracking accuracy and delivering richer business insights for marketing teams.

Assistant Systems Engineer, Tata Consultancy Services – Bangalore, India

Nov 2018 – Mar 2020

- Developed robust REST API's using Typescript & Node.js for microservices based subscription module for FCA.
- Built a pixel-perfect UI using React.js, MaterialUI for the subscription module of FCA Connected Cars, enabling customers to seamlessly subscribe to connected vehicle services.
- Reviewed and optimized code, providing feedback in code reviews to ensure adherence to best practices.

Projects

Ecommerce Website

- Developed an e-commerce website using React, Redux, MongoDB, Node.js with stripe payment integrations for end-end purchase flows.

Education

Conestoga College – Graduation Certification in Big Data Solutions & Architecture

May 2024 - Dec 2024

Conestoga College – Graduation Certification in Computer Applications Development

May 2023 - Apr 2024

PSG College of Technology – BE in Electrical & Electronics Engineering

Jun 2014 - Apr 2018
